MEMORANDUM FOR: All Staff and Division Senior
Training Officers

SUBJECT : Area Division Enrollment in the
CA Operations Course

25X1A8a 1. The revised 3-day CA Operations Course has been reported as being extremely good by all who have attended it. It is a quality course with a lot of high priced talent providing the instruction. However, at the first running FE Division provided almost all the Area Division representation -- with the bulk of the balance filled up with TSD and [REDACTED] personnel.

2. It is suggested that the Area Divisions review their requirements for CA Operations training and submit their nominations to OTR at an early date. In order to justify continued runnings of this course the support of the Area Divisions must be forthcoming. While across the board representation from the CS Staffs and Divisions is encouraged, the bulk of student representation must come from the Area Divisions for whom the course is designed and to whom the greatest benefits will accrue.

25X1A6a 3. The next running of the course will be held at [REDACTED] on 25 - 28 June, and total enrollment should not exceed 20. There is room for 17 men and 3 women.
